

Scrap Dragon X – Versions 3.1.6 Release Notes

**The release notes for 3.1.6 are interactive, so click on the images, where applicable, to get more information on the various new features for this release.

New Functionality/ Enhancements

Dispatch

>> Trip Tasks

When you save a service request trips tasks from the service request are automatically created.

Customer Search

In the customer search, a check box has been added that allows you to search all customers and not just customers who have already had service requests.

Dispatch screen

- You can now order service requests by the schedule date
- > You can now view the status of service requests from the service request page.

New Look

Dispatch

Main Dispatch Page

>On the main dispatch page you can now see all uncompleted service requests regardless of date. If a service request has not been completed or cancelled, you'll see it on the main dispatch page.

Containers that are no longer at a yard no longer appear in the container list in the Dispatch menu

Containers display immediately on the dispatch screen.
